Greg Hopkins doesn't share our values. He's a runway model from Hollywood who called our area a "welfare society." And he shouldn't represent us as a state legislator.<sup>1</sup>

Times are tough, but Hopkins thinks people should pay \$165 for a t-shirt. That's out of touch.<sup>2</sup>

Hopkins wants our votes, but he skipped 40% of the elections since he's been eligible to vote. That's out of touch.<sup>3</sup>

Hopkins wants a new job, but he admits he doesn't have the experience to represent us.<sup>4</sup>
